

*"To help KKP staff with their accounting work, I am test running two new software programs that will make KKP's operations more efficient: the MYOB, a software that generates financial statements and the check printing software, for check preparation. At present, I am the only one capable of using these programs. By July 2009, I will be training a local staff in using these programs.*

*Other activities I took part in include: promotion of gender equality (GE) during KKP's "Women's Month Celebration" held March 14; conduct of a "Basic English Training" last April 11, attended by KKP's National Women's Education Committee (NWEC) members; and assist in the preparatory work for KKP's AGA (Annual General Assembly) particularly by designing and printing name tags and award certificates, and selecting pictures to be used for their 2008 annual report.*

*KKPs' AGA was held June 14, 2009 at Institute Integriti Malaysia, Kuala Lumpur, Malaysia."*
