

*“Although I was busy last March participating in meetings and learning how to market the use of credit cards to selected NATCCO affiliate co-ops, I was able to create a graphical presentation of NATCCO Central Fund’s ATM Daily Acquisition Transactions from August 2008 to February 2009 and the Monthly Commission Income of Western Union (WU) from 2006 to 2009. These activities helped me appreciate the financial advantage co-ops or CUs can gain if they use ATM and WU services. Moreover, I also appreciate being part of trainings and field visits for aside from practicing my training skills, I was able to strengthen my relationship with my co-staff.”*
